

Ask your Representative to say NO to war with Iran

Call the Congressional Switchboard at **202-224-3121 & ask your Representative**

"I am a constituent of Representative _____ and I am calling to ask [him/her] to support any legislation to prevent an unauthorized war with Iran.

Specifically, I urge the Representative to support the bipartisan **"No War With Iran Act," H.R.5543**, to deny any funds for unauthorized military force. President Trump is marching us toward yet another unnecessary war of choice in the Middle East. He is endangering the region and the world with his reckless escalation of tensions with Iran. Congress must reassert its long-established oversight responsibilities in matters of war. Thank you."
